*WITH OFFICES LOCATED IN BUDAPEST AND VALENCIA, WE PROVIDE
MOTION-LED ARCHITECTURAL VISUALIZATIONS AND CREATIVE
CONTENT FOR COMMUNICATING NEW DEVELOPMENTS AND
PRESENTING EARLY-STAGE ARCHITECTURAL CONCEPTS.*

IMAGES FOR 1500 EUR*

For every image you request, we create two sketches to provide various options for your desired composition and mood. Images form the base of most architectural presentations and property campaigns, appearing across various mediums and platforms, from small brochures to digital advertising. We not only offer fresh ideas and different perspectives but also run experiments to improve your final presentation.

*Larger mastperlan/ aerial images might be custom priced.

IMAGES

* BRIEFING

We believe that a well-detailed briefing is the first step towards the visuals that will completely satisfy your needs.

Besides getting to know the material package—models, drawings, references—we would like to understand some of the key features of the project:

- // What makes the building/project special?
- // What is the most important aspect of the subject?
- // What should be the message of the image?
- // What is the target audience?

Questions like these are to ensure that the final results are precisely what you wanted and are in sync with your expectations.

Reference images that show the desired mood and the overall feel are also appreciated.

SIGNATURE ANIMATION

FROM 200 EUR/SEC*

If you aim to rise above your competition, our Signature Animation is designed for you. Tailored for high-profile developments and challenging architectural competitions, it showcases projects in a unique way through a film that goes beyond the basics. It focuses on creativity and originality with a concept-driven approach supported by VFX and 2D motion graphics. Though it comes at a slightly higher price point and requires a little extra in production time, the result is a distinctive film that captures your audience and delivers your message with unimpeded clarity.

*The total production cost is determined by the concept and the length of the animation.
